⇒ A letter of support from a faculty member of the host university where the PhD is being completed is mandatory.

There are basically two different ways to achieve a doctorate degree (aka PhD).

⇒ 1) The **first** way consists in undertaking **doctoral studies at a Swiss University under the supervision of an academic mentor (supervisor)**. In this case, the admission to the PhD at the University might take place after the grant application period at the Swiss Embassy. For your scholarship application you must hand in the support letter of your academic supervisor, however, an admission letter is not required.

⇒ 2) The **second** way consists in **being admitted to a doctoral school**, which provides the framework for the following doctoral studies. Please enquire all possible questions (e.g. your admission etc.) directly with the corresponding doctoral school. In addition to all other application documents (including the support letter from a supervisor), the **admission letter from the doctoral school is required with the application dossier**. As this takes time, applicants must plan accordingly and submit their application for admission to the doctoral school sufficiently in advance of the scholarship programme deadline.

Please note: If the chosen doctoral school does not allow you to contact a supervisor before being admitted to the school, the application for the Swiss Government Excellence Scholarship is not possible.
